

Photo contest

This Year, the PhD students in Physics are pleased to announce a Science photo contest "Edges of Science" to showcase the unique and fascinating scientific adventures of the PhD, Master degree students and researchers of the Departments of Physics, Mathematics, Civil, Environmental and Mechanical Engineering, Industrial Engineering, FBK, CIBIO, ECT*.

Through this contest, we intend to discover original thoughts and creative expression!

They say a picture is worth a thousand words. Let's see if it's true!

The competition aims to document and to explore the areas of the departments and the lives of their students and researchers, celebrating beautiful photography.

The three categories on which the contest is centered:

1. **Life of the scientist: expectations and reality:** photos that illustrate some unexpected results of your research activity and relationship with other scientists in the laboratory. Misfortune or success in the work that you are performing.
2. **At the edge of discovery:** how do you express your success in research or studying (experiments, examination, conference), with who do you share your emotions.
3. **Research at the mountains:** photos that demonstrate your participation in the life of the University of Trento in Povo and Mesiano.

You think you have what it take to capture a winning shot? Then enter the contest and don't forget to make your shot as striking and memorable as possible!

Eligibility

Master students, PhD, Postdocs of the Departments of Physics, Mathematics, Civil, Environmental and Mechanical Engineering, Industrial Engineering, FBK, CIBIO, ECT*

What to win: the winner photo will be printed and hanged on the wall of the University.

How to participate: Participants must send the photos, filled and signed "**Domanda di partecipazione**" form to our email address edges.science@gmail.com

For participation in the contest you should use:

1. Online resources (<http://www.science.unitn.it/~dottorato/wiki/>) to get "**Domanda di partecipazione**" form.
2. Version of the high resolution photographic work for publishing initiatives, formats: JPG, JPEG or PNG;

Entry period

Photos must be sent however within the deadline **1st of October, 2016**

Photo requirements:

1. Each photo should be sent to email address edges.science@gmail.com. Author's name should be indicated. You can also add the research group to which they belong and other comments.
2. Each participant can compete with one shot in every category.
3. The participant must own the intellectual property of the image with which it participates.
4. The most common formats (jpg / jpeg, png) are accepted. RAW formats will not be accepted.

Anything that is offensive to others or that insults the freedom and dignity of anyone is not acceptable. The selection committee will exclude photos which are considered unsuitable.

Photographs will be uploaded and judged by the selection committee and their popularity on instagram **@edgesofscience**.

Judgment criteria:

Entries will be evaluated by a team of judges from representatives of the Physics department scientific community.

- The Selection Committee reserves the sole right, if deemed necessary for reasons of relevance, to transfer a work from one section to another.
- The decisions of the Committee, expressed on the basis of the criteria of originality, creativity, technical quality, Instagram votes, consistent with the purpose and theme of the contest are final.

Based on the decisions of the jury, for each category a winning photo will be chosen.

Copyright

Images must be the result of the work of each participant. Each participant in the contest must be the sole owner of the copyright of each submitted image. The organizing committee reserves the right to exclude a competitor from the competition at any time, if they have reasons to believe that there has been an infringed regulation.
